

Features

- Double solenoid gas train provides the most compact configuration for space restrictive requirements
- Double Hydramotor® gas train provides the highest flow and pressure to meet industry's most demanding requirements
- Solenoid and Hydramotor combination provides the most economical solution for slow opening applications
- Optional NPT threaded flange adapters allow direct piping that simplifies the installation and maintenance
- Suitable for boilers, furnaces, ovens, kilns, heating equipment, and gas generators used in commercial and industrial applications
- Low pressure drop and extremely high flow capacity, ideal in low gas supply pressure applications/locations

Please reference 8214(200), AH(E), or V710(B) catalog pages for additional features.

Approvals

8214(200) valve

UL listed to standard 429 "Electrically Operated Valves," Guide YIOZ, File MP618 Safety Shutoff Valves.

FM Approved to Class 7400 "liquid and gas safety shutoff valves."

CSA Certified to:

- 1) Standard C22.2 No. 139 "Electrically Operated Valves," File 010381.
- 2) Automatic Gas Valves Z21.21 (6.5), C/I, File 112872.
- 3) Automatic Gas Safety Shutoff Valves (3.9), File 112872.

V710(B) valve with AH(E) Hydramotor

UL listed to standard 429 "Electrically Operated Valves," Guide YIOZ, File MP932 Safety Valves

FM Approved to Class 7400 "liquid and gas safety shutoff valves."

CSA Certified to:

1. Automatic Gas Valves ANSI Z21.21 CSA 6.5, C/I, File 109157 and 113070.
2. Automatic Gas Safety Shutoff Valves (CGA 3.9), File 113070
3. Standard C22.2 No. 139, File 109157 and 113070
